

CONSTABLE ALERT

Friday, October 16th, 2020

Dear Village Residents,

ALERT 1 - Cars & Property

On Thursday, October 15th, several cars throughout Wind Point were entered during the night. All of the cars were unlocked. It is unknown at this time if anything of value was taken. If your cars are parked outside overnight, please lock the doors and remove valuables. If your car is either entered or broken into, please contact the Wind Point Police at 262-639-3022.

Also, be sure to close your garage door, secure your home and leave your porch lights on at night. **If you see anything suspicious, please call the Wind Point Police at 262-639-3022.**

ALERT 2 - Coyote

The Village received several reports of coyote sightings in North Bay and the surrounding area of two healthy and not easily frightened coyotes. Coyotes can hop a fence so do not assume that a fenced yard protects your family and pets. Coyotes may view small children and pets as prey. For more information, visit: <https://www.wihumane.org/wildlife/coyotes>.

ALERT 3 - COVID

Racine County is considered a 'high risk' community due to the seven day rise of cumulative and significant Covid19 cases and are one of the three highest at risk counties in the state. As of Thursday, October 15th, 2,838 positive cases were identified with 322 probable (meaning they had an antigen test or were in close contact to someone who had tested positive). The numbers of patients in local hospitals with Covid are at the highest level since April. The guidelines for protecting yourself can be found on the [Central Racine County Health Department](#) website. The website will also list the testing sites in our area for next week.

Please stay safe.

Sincerely,

Kristin Wright, Constable

Village of North Bay
